# About This Manual

To ensure that a compiled collection of resources, as complete as possible, is available to any and all in Lake County, Colorado. That is the purpose of this manual. To ensure maximum accessibility, accounting for the diversity of the county communities, both English and Spanish versions have been made available. To reach as many people as possible, links to read and download this manual have been uploaded on as many county affiliated websites as possible.

For emergency use, essential workers such as medical professionals, law enforcement, and crisis response personnel will have access to a condensed, summarized version of this manual, easy to keep on their person or in their vehicles. Their pocket-sized versions have a QR code that will take the scanner to the full version of the manual, being read here.

Each section of the manual will begin with a summary of what to expect within the titled topic. For example, the **Health & Wellness** section will include all known resources available to county residents and visitors, and will comprise medical services, as well as dental, vision, mental health services, and more. We have also included whether such resources offer assistances for low-income families or individuals. An example of resource information is below:

**Name of Organization/Business/Service**  
Address  
**Contact Method(s)**  
Hours of Operation  
Summary of Services relating to overall topic

It is our goal to have this manual released annually. This is the 2024 edition. Any relevant additions, subtractions, edits, and alterations of participating entities will be made well prior to the next edition being published and available to the public.

See the **Contact Us** page at the end of this manual for more information concerning questions, changes, and comments.

# Violence Prevention Team

Founded in 2019, the Lake County Violence Prevention Team (VPT) is comprised of more than fifteen (15) governmental, non-governmental, and non-profit organizations all throughout Lake County, as well as the counties comprising Colorado's Fifth Judicial District. Our partnership is focused on improving the safety and security of all Lake County communities, as well as lowering rates of violence of all kinds through evidence-based behavioral change. The VPT hopes this manual will improve access and communication across resources so that all residents and visitors may be as safe and thriving as possible in Lake County, Colorado.

# Health & Wellness

Health and Wellness comprises far more than a simple doctor's visit every year. In this section, you will find resources related to medical services, as well as dental, vision, and mental health. We will share whether these services are public or private and if they offer emergency response. If you have any changes to be made for the 2025 Resource Manual, check the [Contact Us](#) section to reach out with that information.
